1. I informed Mr. Cotter, of the staff of the Joint Congressional Committee on Atomic Energy, that we were reviewing the case of Mrs. [REDACTED] in the light of their request, and that as an initial step our Security Officer was checking with AEC on her security background. I also suggested the possibility that Mr. Cotter consider approaching the Joint Chiefs of Staff to see whether [REDACTED] case would fit into their special visa provisions.

25X1A 2. In connection with the immigration problems of [REDACTED]  
[REDACTED] Col. Edwards said that it would be preferable if I could arrange for the  
25X1A AEC to proffer [REDACTED] rather than to have CIA request  
25X1A it. Therefore, I have talked with [REDACTED] who will ask General Nichols,  
the AEC General Manager, to make the necessary arrangements to have AEC  
security invite CIA to review the file. 15 July '54
